

some of his patients because of his race. Rather than letting this become a source of discouragement, Dr. Smith instead quietly and calmly carried out his vital work each day with warmth and good humor. He was known to have convinced more than a few patients to let go of their racial animus because of his professional demeanor and attentiveness to his patients' needs and concerns. Dr. Smith believes that it is a great privilege to be entrusted with the well being of our nation's veterans, and that commitment to service is reflected in the way he cared for our nation's wounded.

Among his colleagues, Dr. Smith's bedside manner was considered "a thing of beauty." He was always open, accessible, and never made anyone feel like they were imposing a burden on his time. His calm manner under stress exerted a calming influence on those around him. As a resident teacher, Dr. Smith was sought-after by physicians-in-training for his professional enthusiasm and expertise. His patients regarded him as their primary care physician of choice, and considered his office in the VA "the gold standard" in healthcare. He took even the most mundane talks seriously whenever it concerned a veteran's well-being, listening carefully to every patient's story, dutifully tracking each patient's clinical needs, no matter how small.

Mr. Speaker, I ask my colleagues to join me in thanking Dr. Roger Gordon Smith for his dedication to his country, his service to our nation's wounded and the inspiration he has provided to his students and his colleagues. Dr. Smith's great achievement is three decades of daily service to our veterans, acting as the open hand of a grateful nation to our nation's wounded warriors. Dr. Smith is what every physician should strive to be.

COLORADO SCHOOL OF MINES
WOMEN'S SOFTBALL TEAM

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2011

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud the Colorado School of Mines Women's Softball Team, who last spring won a berth at the NCAA Women's Softball Tournament for the second time in school history. The Orediggers finished the year with a conference record of 28–11, and an overall record of 36–24, sharing the Rocky Mountain Athletic Conference Championship with Metropolitan State College of Denver. The School of Mines also hosted the Rocky Mountain Athletic Conference softball championship last spring. The three day event was a success for the School of Mines and all the schools that participated. Two of the School of Mines players were named to the All Tournament Team, Kelly Unkrich, and Macy Jones.

The women of the Orediggers softball team should be extremely proud of their 2011 season, and their efforts on the diamond and in the classroom. These women exemplify the idea of the collegiate student-athlete. The Colorado School of Mines specializes in hard sciences, and I commend these young women in their dedication to fields that have traditionally been male dominated. They are an inspiration to girls everywhere who want to study science and engineering.

I also want to congratulate pitcher Kelly Unkrich who was named the Rocky Mountain Athletic Conference Women's Athlete of the Month for April 2011.

I extend my deepest congratulations to the women of the Colorado School of Mines Women's Softball Team. The lessons they are learning as student-athletes will make these women the science and technology leaders of tomorrow. I am proud to have this world class school in my district. I wish the team best of luck in the 2012 season. I hope it is even more successful than 2011, again congratulations, and Go Orediggers!

TRIBUTE TO MR. TOM HOSEA,
EXECUTIVE DIRECTOR, HICA

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2011

Mr. DAVIS of Illinois. Mr. Speaker, I have known Mr. Tom Hosea since the late 1960s and early 1970s. When I first met Tom, he

was an executive with the American Hospital Association; many of us who met and ran together at that time were health activists. I say ran together because we attended so many meetings until it seemed as a natural thing to do. Although there were many emerging groups, Tom was actively involved with the Chicago chapter of the National Association of Health Services Executives. As a matter of fact, Tom was the highest ranking African-American, or Black person, that we knew who worked for the American Hospital Association at that time.

Tom got the community action bug and the next thing I knew he was working with Dr. Levy, a Black Hebrew Israelite down East of Ashland on Roosevelt Road in an area called the Valley where the Westside organization operated with Chester Robinson, Thursty Darden, Rev. Archie Hargraves, Rev. John Crawford, and others in its leadership. Later on, Tom got involved in the Austin community and worked with Mary Volpe as Assistant Director of the Northeast Austin Community Organization and after Sam Flowers died, Tom became the Executive Director of HICA which he has struggled to keep alive.

When I first knew Tom his name was Hozier; he also got involved with the entertainment business spinning records and putting on events; next thing I knew, I along with everyone else that I knew was calling him Hosea. Tom has passed away, but he led a very active life and had a very meaningful and colorful career.

To his wife and family, we express our condolences and know that the value of his work will go on and on.

WORLD AIDS DAY

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2011

Ms. SCHAKOWSKY. Mr. Speaker, as we pause to reflect on World AIDS Day, I want to thank the many activists and advocates who work tirelessly—every day—to focus increased attention on HIV/AIDS education, treatment and prevention. I want to recognize the great work of David Munar and the AIDS Foundation of Chicago, and Mark Ishaug and AIDS United, who—along with countless organizations across the country and world—are working to end HIV/AIDS and to ensure that people with HIV/AIDS live longer and better lives.

HIV/AIDS is one of the world's most pressing global health challenges. It is a danger to global security and to the future of people around the world. Nearly 35 million people are living with HIV/AIDS around the world, including over one million Americans. Our community, our nation and the entire world are threatened by this terrible pandemic.

As the HIV virus has spread, the face of its victims has changed. Women now account for 52 percent of the adults living with HIV/AIDS around the world. In regions like sub-Saharan Africa, gender inequalities have left women particularly vulnerable to infection. The battle to stop the spread of HIV/AIDS among women will ultimately hinge on our ability to empower them with the information and the tools needed to protect themselves, their families and their communities. That is one of the reasons
